

Privacy Policy

Welcome to the Sifam Tinsley Instrumentation Inc. website. At Sifam Tinsley Instrumentation, we respect the privacy of all individuals who visit our website and are committed to protecting the confidentiality and security of the personal information provided to us. This Privacy Policy describes how we collect, use, and safeguard personal and other information obtained through our website.

Personal Information

We do not require visitors to provide personal information in order to access most areas of our website. Visitors may browse a significant portion of the website without submitting any personal data.

Personal information may be collected on a voluntary basis when visitors choose to provide it through inquiries, forms, or other interactions with the website. Such personal information may include name, title, company name, address, telephone number, email address, or other relevant information. Questions, feedback, or comments submitted by visitors may also contain personal information.

Sifam Tinsley Instrumentation may collect and use personal information for legitimate business purposes. This may include enabling visitors to download product information, submit product inquiries, place orders, or use other features available on the website. Personal information may also be used to provide requested information or services via email or postal mail, to respond to inquiries, to seek feedback, or to contact visitors regarding services offered through the website.

Personal information may further be used to process orders or applications submitted by visitors, administer agreements or obligations associated with our business relationships, anticipate and resolve issues related to goods or services supplied, and support the development of products or services that better meet customer needs. In addition, such information may be used to process requests, improve operational performance, communicate with visitors regarding our products, services, and business activities, and enable users to subscribe to newsletters or similar informational communications.

Sifam Tinsley Instrumentation does not use or share personal information collected through this website with third parties for direct marketing purposes. Due to the nature of internet-based communications, personal information may be transmitted across international borders within Sifam Tinsley Instrumentation and its affiliated entities for purposes such as storage, data processing, or operational support. However, such information will not be provided to unrelated businesses for direct marketing activities.

Where required or permitted by applicable law, Sifam Tinsley Instrumentation may collect, use, or disclose personal information in connection with security investigations, legal proceedings, regulatory requirements, or cooperation with law enforcement authorities.

Sifam Tinsley Instrumentation may also remove personally identifiable elements from collected information and use the remaining data for historical, statistical, analytical, or scientific purposes.

If you contact us by email, you are voluntarily providing information to Sifam Tinsley Instrumentation. Your email address and related information will be used solely to respond to your inquiry or request. Information that can personally identify you, such as your email address, will not be used for unsolicited direct marketing purposes.

In certain cases, similar information may have been previously collected through earlier communications or interactions. By accessing this website and submitting personal information, you consent to the terms outlined in this Privacy Policy and to the continued processing of such information in accordance with these practices.

Non-Personal Information

When you visit our website, certain information may be automatically transmitted by your web browser and collected by our servers. This information may include your domain name, the Internet Protocol (IP) address used to connect your computer to the internet, browser type, operating system and platform, pages visited, time spent on the website, search information, access times, and the websites visited immediately before or after accessing our website. The amount and type of information transmitted depend on the configuration and settings of your web browser.

Such information is collected to help us operate and improve our website and services. From time to time, Sifam Tinsley Instrumentation may provide aggregated statistical information to operators of third-party websites that link to our website, such as information regarding the number of users accessing our website through those links. This information does not identify individual users.

The information automatically collected from web browsers helps us understand how visitors interact with our website, including which pages are viewed, how visitors arrive at the website, and how they navigate after leaving. Sifam Tinsley Instrumentation may analyze this information in aggregated form to evaluate website usage, improve performance, and present content in a manner that best serves the needs of our visitors.

Our website may also store certain information, such as cookies, on a visitor's computer. Cookies are small data files that a website transfers to a visitor's device for record-keeping purposes and to enhance the user experience. Cookies help facilitate the use of the website by allowing visitors to avoid re-entering certain information during future visits. Visitors may choose to delete or block cookies through their browser settings; however, doing so may limit the availability or functionality of certain features on the website.

Cookies and related technologies may also be used to personalize the visitor experience, assist with automatic form completion, improve website functionality, tailor content to visitor needs, and verify that users meet the requirements necessary to process specific requests.

Security

Sifam Tinsley Instrumentation has implemented appropriate technologies, policies, and procedures designed to protect personal information against unauthorized access, misuse, or disclosure. These safeguards are reviewed periodically to ensure the continued protection of information handled by the company.

Third Parties

For the convenience of our users, this website may contain hyperlinks to other pages within Sifam Tinsley Instrumentation websites or to external websites operated by third parties. In addition, users may access our website through links provided by other websites. Sifam Tinsley Instrumentation is not responsible for the privacy practices or policies of such external websites. We cannot guarantee or make representations regarding data collection practices on websites that are not owned or controlled by Sifam Tinsley Instrumentation. Visitors are encouraged to review the privacy policies of any external websites they access and to contact the operators of those sites if they have any questions or concerns regarding their privacy practices.
