

## Gamma 36

### Digital Multimeter

Perfect for electrical, electronics, radio, and TV applications, as well as training and education. Its ultra-compact design slips easily into your pocket, while the included protective cover doubles as a stand for effortless, hands-free reading right from your workbench.

### Features

- TRMS measurements allow for tackling any type of loads
- AC/DC Voltage measurement up to 1000V & current up to 10A
- Vast capacitance measurement up to 60mF
- NCV (non-contact voltage detection) to detect live wires
- Automatic Terminal Blocking system to enhance safety
- 6000 counts DMM, packed with various measurement parameters like  $\Omega$ , Hz, Diode, etc.
- CAT III 600V, CAT II 1000V protection, CE, RoHS compliance

### Application

**Electrical Circuit Testing & Troubleshooting**

**Radio And Television Servicing**

**Technical Training & Educational Purposes**

**Field Service . For Technicians**

**Component Testing (resistors, Diodes, Continuity)**
