

Theta CT is very reliable, efficient and robust current transformer series for measurement of AC Current. It provides 4-20 mA or 0-20 mA DC output for an Input AC Current Range upto 0-750AC Amps. It comes in two sizes with a power supply input of 24V DC.

Theta CT

Current Transformer Series
with built in Transducers

Features

- Single device serves functionality of both current transformer as well as transducer
- Measurement of AC current for frequency 50/60Hz ,Provides proportional 4 - 20 mA or 0-20 mA DC output
- High output load resistance 1000ohm
- True RMS and Average type models available
- Easy and safe electrical connection by means of spring clamp terminal
