

## Compact VAF Meter - Alpha CM 12/ 30/ 60

### Precision in a Smaller Package

Introducing our **Compact VAF Meter** designed for effortless installation and precise measurement of Voltage, Current, and Frequency.

Available in two versatile variants:

- **Alpha CM12**: With **inbuilt CT provision** for direct and reliable current sensing.
- **Alpha CM30 & 60**: Supports **direct current measurement up to 30A and 60A**, eliminating the need for external CTS.

### Features

- Compact and lightweight design for easy panel integration
- High accuracy and stability under varying loads
- Bright digital display with quick parameter access
- Low power consumption and extended lifespan
- Ideal for both single-phase and three-phase applications

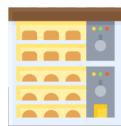

### Application

HVAC & Chiller Units

Solar Inverter Panels & Combiner Boxes

Industrial Ovens and Furnaces

Telecom & Data Center Racks

Marine & Shipboard Panels
